

Here's How to Keep Current with Indiana Environmental Statutes & Rules

State Form 47152 (R8/3-00)
Approved by State Board of Accounts, 2000

The Indiana Department of Environmental Management annually publishes four books that put all of Indiana's environmental laws and rules at your fingertips in a streamlined size and easy-to-use format.

The **Indiana Environmental Statutes** book puts all of Indiana's environmental laws in one volume. It includes all of Title 13 of the Indiana Code, plus provisions relevant to IDEM found in Titles 2, 4, 36 and other parts of the Code. These laws cover a variety of topics, including composting facilities, landfills, battery recycling, low-level radioactive waste, asbestos and open burning. **Every year, this book is updated to incorporate new or amended laws passed during that year's legislative session. It usually becomes available by September.**

Indiana Environmental Rules is a three volume set that contains Indiana's air, water and waste rules. **These books are updated every year to incorporate new or amended rules that appeared in all issues of the prior year's Indiana Register.** For example, the 2000 edition of *Indiana Environmental Rules: Air* contains all the air rules through the end of 1999. All three rules books are now available.

Ordering Information

The books can be purchased by mail order for \$15.00 **per book** (price includes shipping).
